

Rand Stadium **Toyota** **sponsors** wheelchair basketball team

Situated just three kilometres apart, Rand Stadium Toyota has a longstanding relationship with the Frances Vorweg LSEN school. The award-winning dealership was happy to support the school's wheelchair basketball team when they participated in the Gauteng Sports Association for the Physically Disabled league earlier this year.

The school was also honoured to have four of its para-athletes selected to be part of the Gauteng Provincial Athletics Team. This team competed at the South African Sport Association for Physically Disabled (SASAPD) National Championships held in Bloemfontein in March earlier this year. Rand Stadium Toyota provided transportation for the athletes and staff, enabling them to travel to Bloemfontein and proudly participate in the boccia, soccer, and track and field events.

LSEN stands for “Learners with Special Educational Needs” and LSEN schools are specifically designed to support students with learning difficulties or disabilities that may affect their ability to learn in a traditional classroom setting. These schools provide tailored educational programs and resources to meet the unique needs of each learner. LSEN schools cater to a variety of needs, including physical disabilities, intellectual disabilities, sensory impairments, and emotional or behavioural challenges. The goal is to create an inclusive and supportive environment where all students can thrive and reach their full potential.
