

# Super Group Volunteers **Rise Against Hunger** for Mandela Day

**Almost half of all childhood deaths worldwide occur in children with malnutrition and it is believed that one in ten South Africans go hungry every day. This is something that Rise Against Hunger is working to change. Operating in South Africa since 2009, this international organisation coordinates the distribution of food and other life-saving aid worldwide.**

Their focus is on reaching hungry children - especially those who are of pre-school age - and they provide fully balanced meals essential for early childhood development. The meals provided are highly nutritious and comprise of rice, soya, dehydrated vegetable mix and a fortification pack of 23 essential minerals and vitamins specifically formulated to combat malnutrition.

Super Group has been a logistics partner to Rise Against Hunger in Africa since 2013, transporting thousands of tonnes of raw ingredients to volunteer-driven meal packing events and distributing meal packs across the country. This July, as part of our Mandela Day initiatives, volunteers at both Super Park and Head Office participated in meal packaging events.

See how you can help at: [www.rahafrica.org](http://www.rahafrica.org)

Fittingly, the focus for the 2022 Mandela Day included the growing threat of food security and hundreds of Super Group employees contributed their 67 minutes to make a positive difference - packing 38,880 meals destined for pre-schools around the country.

**38,880 meals**  
will feed  
**169 children,**  
**5 meals**  
a week for an  
**entire year.**
